

Director's Message
October 31, 2009

November 7 is coming up very quickly. We expect ASES will grant us official chapter status at that time. Our work on the 501c3 tax exempt application for the IRS is nearing completion.

We will be at the Tennessee Solar Symposium, November 10, at the Renaissance Hotel, Nashville. Please be there! Jim will be wearing his stetson and I will be his sidekick, the tall one. This is a very important meeting, and we expect that the Governor will have much to say about solar and Tennessee. Stop Jim or me and ask for a brochure or a handful of brochures to share with your friends interested in solar energy.

If you were a former member of the Tennessee Solar Energy Association, located at MTSU, know that you are very important. We ask that you join us and continue to help make Tennessee solar efforts even stronger than they are. Please view and post your comments on our photonfuture blog.
